Important Safety Information

Grounded information

This apparatus must be grounded. To ensure safe operation, the grounded plug must be inserted only into a standard grounded power outlet which is effectively grounded through normal household wiring. Extension cords used with the equipment could be hazardous. The fact that the equipment operates satisfactorily only means it is grounded, but the installation may not necessarily be safe. For your safety, if in any doubt about the effective grounding of the equipment or power outlet, please consult qualified service personnel.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC , DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE. TO AVOID ELECTRIC SHOCK, INSERT THE PLUG FULLY INTO THE POWER OUTLET.

Product disposal

Do not dispose of the TV with general household waste. The LCD screen contains a small amount of liquid crystal and mercury. For disposal or recycling information, please contact your local authorities.

Safety precautions

Please read all of these instructions before you operate your television and save these instructions for later use. This unit has been engineered and manufactured to ensure your personal safety, however, improper use can result in electric shock or fire hazard. In order not to defeat the safeguards incorporated in this equipment, please observe the following basic rules for its installation, use and servicing.

- Unplug this television equipment from the wall outlet before cleaning.
- Do not use liquid cleaners or aerosol cleaners. Use a soft cloth moistened with water for cleaning.
- Use only the attachments recommended by the television equipment manufacturer.
- Do not use this television equipment near water, for example, near a bath tub, washbowl, kitchen sink or laundry tub, in a wet basement, or near a swimming pool.
- Do not place this equipment on an unstable surface, stand, or cart. The television equipment may fall, causing serious injury to a child or an adult, and seriously damage the equipment.
- When carrying the TV, hold it under the main unit. Do not carry the TV by its speakers, Both the base and the speakers could come off, causing you to drop the TV, possibly resulting in damage to the TV or causing injury.
- Television equipment and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces when moving may cause the equipment and cart combination to overturn.
- Shelf mounting should follow the manufacturer's instructions, and should use a mounting kit approved by the manufacturer.
- Slots and openings in the cabinet and the back or bottom are provided for ventilation. To ensure reliable operation of the television equipment and to protect it from overheating, these openings must not be blocked or covered. This television equipment should not be placed in an enclosed installation such as a bookcase unless proper ventilation is provided.

-
- The openings should never be covered with a cloth or other material, and the bottom openings should not be blocked by placing near or over a radiator or heat source.
 - This television equipment should be operated only from type of power source indicated on the marking label. If you are not sure of the type of power supplied to your home, consult your television dealer or local power company.
 - As a safety feature, this television equipment is equipped with a grounded power plug, if the plug does not fit in your power outlet, contact your electrician. Do not modify the plug and defeat this safety feature.
 - Do not allow anything to rest on the power cord. Do not locate this television equipment where the cord may be damaged due to lightning and power-line surges.
 - Follow all warnings and instructions marked on the television equipment.
 - If an outdoor antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and static charges.
 - For added protection of this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.
 - An outdoor antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outdoor antenna system, extreme care should be taken to keep from touching such power lines or circuits as contacting with them could be fatal.
 - The mains plug or the appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable. The mains plug is connected with the electrical outlet with safety grounded wire.
 - Do not over load wall outlets and extension cords as this can result in fire or electric shock.
 - Never push objects of any kind into this television equipment through cabinet slots as they may touch dangerous voltage points or result in short-circuits of internal parts. This could result in a fire or electric shock. Never spill any kind of liquid on the television equipment.
 - Do not attempt to service the television equipment by yourself because opening or removing covers may expose you to dangerous voltage or other hazard. Refer all servicing to qualified service personnel.
 - Unplug this television equipment from the wall outlet and refer servicing to qualified service personnel under the following conditions:
 - When the power cord or plug is damaged or frayed.
 - If liquid has been spilled into the television equipment.
 - If the television equipment does not operate according to the operating instructions, please just covered by the operating instruction because improper adjustment of other controls may and will often require extensive work by a qualified technician to restore the television equipment to normal state.
 - If the television equipment has been dropped or damaged.
 - When the television comes about a distinct change in performance
 - this indicates a need for service.
 - Upon completion of any service or repairs to this television equipment, ask the service technician to perform routine safety checks to determine that the television is in safe operating condition.
 - When replacement parts are required, make sure that the service technician has used replacement parts specified by the manufacturer that have the same characteristics as the original part.
Unauthorized substitutions may result in fire, electric shock, or other hazards.
 - Note to CATV system installer : This note is to remind the CATV system installers that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry practical.
-

<p>CAUTION: If the set is not going to be used for a long period, such as during a vacation, remove the plug from the wall outlet to economise power. (If the TV set is plugged in, a slight current still flows, even the power button is in OFF position.)</p>

Handling the LCD screen

- Direct sunlight on the LCD screen can cause damage to the screen. Take care when you are placing the television near a window.
- Do not push or scratch the LCD screen. Do not place heavy objects on the LCD screen. Those may cause the screen to lose conformity or cause LCD panel to malfunction.
- If the TV is used in a cold place, fuzzy image may appear on the screen. This is not a malfunction. The screen will be normal as its temperature rises to the normal operating level.
- If a still picture is displayed for a long period of time on the television screen, ghosting may occur for a while. The ghosting will eventually disappear.
- Displaying a static image for a long period of time on the television screen may cause burn in.
- If the LCD panel becomes warm during operation, this is normal and not a malfunction.

Handling of broken glass and liquid crystal leakage

If the LCD panel is damaged, crystalline liquid leakage may occur, or scattered broken glass may result. Do not touch broken glass or crystalline liquid (which is toxic) with bare hands that have cuts or skin irritation as poisoning may result. If any crystalline liquid gets into mouth or eyes, rinse thoroughly with clean water and consult your doctor.

IMPORTANT NOTICE

This product composes up to 6.0 million cells and a few cell defects may occur in the manufacture of the panel. Several dead pixel (allow up to 2 bright or 2 dark pixels) on the panel are deemed acceptable by the industry standards. In line with manufacturers and would not mean that the panel is faulty. Dead pixels panels with 6 pixels or more within 12 month period, Palsonic Corporation Pty Ltd. complies with industry standard and reserves the right to repair the unit and non-refundable. We hope you will understand that the product that corresponds to this standard is regarded as acceptable.

Overview of the LCD TV

Congratulation on purchasing the LCD Television. This product has been designed to provide you with a variety of audio and video experience. This monitor enables you to watch broadcast, cable television, channels, connect a VCR, or DVD player to watch your favorite movies or connect a computer to use the display as a monitor. The television is equipped with convenient control buttons and a handy remote control to let you adjust the television settings and customize the television preferences through an easy-to-use on screen menu system.

Features

Enjoy the versatility of your LCD TV with its wide variety of features:

- Color active matrix TFT LCD TV with remote control
- Safe, sturdy construction
- Maximum resolution: 23.6" 1920 x 1080
- Audio / Video support:
 - HDMI input
 - RF input
 - YPbPr input
 - PC input
 - PC Audio input
 - AV input
 - Earphone
 - Coaxial output
 - USB
- On-Screen Display (OSD) menu system
- Built-in 2 speakers

Opening the packing

The following section describes the various components of the LCD TV. Please take a few moments to familiarize yourself with the product and control panel before using it.

When you unpack this LCD TV, make sure the box contains the following items:

- LCD Color Television
- Remote Control (with batteries)
- Power Cord
- User Manual
- Warranty Card
- Quick Start Guide
- Stand
- Stand Screws (QTY2)

If any of these items appears to be missing or damaged, please contact your vendor or authorised service personnel for assistance.

Product Components

Front view

1 OPEN

Eject a DVD disc (only available in TV with DVD player).

DVD Operation

To select DVD press the INPUT button and using the ▲/▼ buttons select DVD and press OK. Insert a DVD disc with the label FACING FORWARD. Inserting a disc incorrectly may cause damage to the Laser Optic. Do not place any damaged, dirty or disc not 12cm in diameter into the loader. The mechanism will draw the disc in automatically.

In most cases the DVD title will be displayed together with a disc menu. Select the feature required with the cursor buttons and press Play / Pause. ►||

To Pause play, press the Play / Pause button, press again to continue playing.

To stop playing press ■ Press once to pre stop, if the disc is not removed the player will continue from the “stopped” point, when play is pressed. Pressing STOP again will stop the player.

DVD Setup Menu's

To set the DVD section to your requirements a series of menu's are provided. With no disc in the player, press the DVD SETUP button on the remote control, you will now see menu (Fig 37).

The first item is **General Setup Page**.

Use the ▲/▼ buttons to select the item required and use the ► button to select the sub menu. In the sub menu use the ▲/▼ buttons to select the item required and OK to confirm.

TV Shape

Some DVD discs have been authored in 4:3 aspect ratio format. To see the material in its original mode, you may need to change the Aspect ratio.

Normal/PS (Pan&Scan)

Black edges left and right will be seen.

Normal/LB (Letterbox)

Top and bottom of the screen may be black.

Wide 16:9 (Widescreen)

Full width picture but may have black areas top and bottom.

OSD Language

Select the OSD Language (English is default).

Last Memory

You may wish the player to remember where it finished playing a disc and then remove the disc. When you stop the disc, the player will automatically remember the point it finished playing. When the disc is re inserted the player will continue from the same point.

Language Setup (Fig 39)

OSD Language

To select the OSD Language press the ► button, this will then show the language available, use the ▲/▼ buttons to select the required language and press OK.

Audio Language

To select the Audio Language press the ► button, this will then show the languages available, use the ▲/▼ buttons to select the required language and press OK.

Audio Setup Page (Fig 38)

Down mix is defaulted to Stereo.

Fig 37

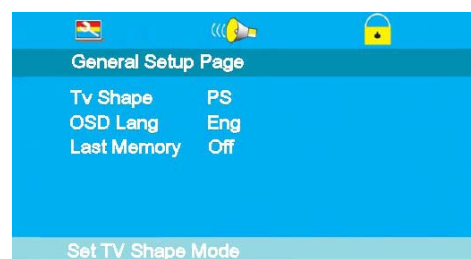

Fig 38

Preference Page (Fig 39)

AUDIO: Select Audio using the ▲/▼ buttons. The languages available will be shown in the right column. Select the required language using the ► / ▼ buttons. Default is English. If the disc has that language it will play the soundtrack in that language.

Fig 39

DVD Function Setting

The chapter is only available in TV with DVD player.

DVD SYSTEM MENU

- Press SETUP button to activate the DVD player OSD menu;
- Press ◀/▶ button to move and highlight between different sub-menu. Press ▲/▼ or OK button to enter the highlighted sub-menu.
- Press SETUP button to exit the OSD menu.

Go To General Setup Page
TV Display

- 4:3 Pan Scan: Choosing this setting if your DVD player is connected to a normal ratio TV. You can fill the movie to the entire screen of your TV. This might mean that parts of the picture (the left and right edges) won't be seen.

- 4:3 Letter Box: Choosing this setting if your DVD player is connected to a normal ratio TV. You'll see the movies in their original aspect ratio (height-to-width ratio). You'll see the entire frame of the movie, but it will take up a smaller portion of the screen vertically. The movie might appear with black bars at the top and bottom of the screen.
- 16:9: Choose this setting if your DVD player is connected to a wide screen TV. If you choose this setting and you don't have a wide screen TV, the images on the screen may appear distorted due to vertical compression.

TV Display

Highlight the OSD LANGUAGE option, and press the Arrow buttons to choose the OSD language you prefer. Press OK to confirm, and it will display OSD in that language; That is one optional OSD languages: English, French, German, Italian, Spanish, Portuguese. Default OSD language is French.

Troubleshooting

No power

- Make sure the TV and the power cord are connected correctly.
- Check if you pressed POWER on the remote control unit. If the indicator in the front panel is red, press POWER in the remote control or the front control panel.

LCD TV does not operate

- External influences such as lightning or static electricity may cause improper operation. In this case, operate the unit after first turning on the power, or unplugging the AC cord and plugging it in again after 1 to 2 minutes.

Power is cut off suddenly

- Check if the off timer or sleep timer are set.
- The unit's internal temperature has increased. Remove any objects blocking the vents and clean them to remove dust.

Remote control unit does not operate

- Check if the batteries are inserted with the polarity(+,-)correctly aligned.
- Check if the batteries are discharged. Please replace with new batteries.
- Make sure that you do not use the remote control under strong or fluorescent lighting.
- Check if there is a fluorescent light illuminated near the remote control sensor.
- The path of the remote control beam may be blocked;please make sure the path is clear and that remote control is aimed at the remote control sensor in the TV .

Picture is cut off /with side bar screen

- Check if the image position is correct .
- Check if the screen mode adjustments such as picture size are made correctly.

Strange color, light color, or color misalignment

- Is the room too bright? The picture may look dark in a room that is too bright.
- Check the input signal setting.
